

The New York Metro Area Chapter invites you to attend...

Building Career Insurance: How to Survive in a Downsizing World

Despite the screaming headlines about so many layoffs, more than 90 percent of American employees will weather the storm. **Will you be able to breathe a sigh of relief when things get better in 2010 or 2011? Attend this seminar to take charge of your career and find out.**

Non-members can attend this career strategy session at our special recession-buster price of only \$20! Dues-paying NY Metro Chapter members can attend at no charge.

Susanne Rhow from the Five O'Clock Club will also discuss:

- **Specific strategies to guide you in setting specific long-term career goals**
- **How to avoid getting derailed—and how to bounce back quickly, and keep on course when it does happen**
- **How to Move from Getting a Paycheck to Getting a Life: Engineering Career Change**
- **Specific strategies to guide you in making career changes that reflect your current and future professional/personal goals.**

In all likelihood, there will never be a time again when people can enjoy *job security*. It's no good to think about these things *after* you've been laid off. Every day that you're *in* your job, part of your focus should be on doing the right things to achieve your long-range goals. Susanne's presentation offers an excellent tool to strategize for 2010 and we encourage you to attend.
